

Product / Services stories From AAA Sexy Floors Australia

7 MARCH 2007

Aaa Sexy floors are sometimes asked to design an epoxy floor that most would say was impossible. We created the creek bed and spilled drink effect for Bundaberg Brewed Drinks, from there we went on to design the beach and rock pools for Wrekless Surf Shop. Would you like to see the Daintree rainforest? I would, so please, someone ask to have an eco-friendly rainforest feature on your floor.

AAA Sexy Floors can estimate and specify any Commercial, Industrial and Domestic project within Australia.

CREEK BED

At Bundaberg Brewed Drinks Visitors Centre we created a floor that is distinctive to their business.

This resin floor was made to look like there is a creek bed flowing through the Centre.

Epoxy floors are seamless, hygienic, durable and most importantly safe. If you have a showroom, restaurant, retail space, warehouse or a home, we can design a unique floor just for you.

INDOOR RIVER

The 'Wrekless' Surf Shop in Caloundra had one thought for their floor; 'Give Kelvin the keys and come back in a week'.

As soon as you walk in, you're greeted by the meandering turquoise "water" with beach either side. The change rooms feature man made rock pools full of starfish and if you look close you might even find some money.

The heart shape rock [left] in the entry was made with love for Kelvin's wife, Robyn.

THE BEACH

Bring the beach to the workplace or home. This sand and shell design is actually a counter top in a swimwear shop. It is possible to have this design as a feature on your floor.

We can design unique and exclusive flooring for your business or home. Others may try to copy our floors but unless they've bought a Sexy Floor franchise it will not be the best.
