

25 MAY 2007

“AAA Sexy Floors has been a pleasure to deal with through out the store opening process. The professional service plus the flexibility of your people to fit in with the many changes to our opening program has been exceptional. Well done Kelvin and team. We will continue to use and recommend Sexy Floors.

The unique and original look you have given Far Pavilions will inspire our next generations of customers. Thank you for convincing us that the look and feel of this type of floor will benefit our business and set us apart from furniture retailers (it certainly has done that)”

Thanks again
